To Whom It May Concern:

Dear Sir/Madam

**Re: Security Global**

Having used Security Global as our supplier of door supervisors for almost a year, we have always found them to be efficient, organised and attentive to our needs.

At Town & Country Inns Plc we have a varied client base in terms of age, ethnicity, social background and wealth. The supervisors must be able to converse with and sell our product to all our clients. The quality of operatives is extremely good, they are well disciplined and work to the stringent rules set out by both Security Global and ourselves.

We have no hesitation in recommending Security Global to any operator that requires a 'higher than average' level of service!

Yours faithfully

**MARK JONES  
DIRECTOR**
